

## HP0649 LED MINI-FLOODLIGHTS (WALKWAY LIGHTING)

### LED MINI-FLOODLIGHTS

The Walkway floodlight illuminates the critical patient pathway and emergency egress routes to ensure safer night time operations.

#### TECHNICAL DETAILS

<b>Operating Voltage:</b>	120V /60 Hz
<b>Max Power Consumption:</b>	12 watts, .10 amps @ 120V
<b>Operating Temperature:</b>	-13F to 122F -25C to 50C

#### LED CHARACTERISTICS

<b>LEDs:</b>	Multi-chip, high-output, long-life LEDs
<b>Lifespan:</b>	100,000-Hour LED lifespan based on IES LM-80 results and TM-21 calculation
<b>Color Stability:</b>	LED color temperature is warranted to shift no more than 200K in CCT over a 5-year period

#### CONSTRUCTION

<b>Thermal Management:</b>	Superior heat sinking with external Air-Flow fins
<b>Housing:</b>	Die-cast aluminum housing, lens frame and mounting plate
<b>Reflector:</b>	Semi-specular, vacuum-metalized polycarbonate
<b>Lens:</b>	Micro-prismatic diffusion lens for smooth and even light distribution
